WILL SHOW BIG INCREASE.

Reassessment of Realty in Lynchburg Is Now in Progress.
[Special to The Times-Dispatch.] Lynchburg, Va., August 13.—According to a well informed authority the forthcoming reassessment of realty in the city will show an increase of nearly \$4,000,000 over the assessment of 1905.
The assessors are sitting this week for the purpose of hearing complaints, and after this is done with the books will be footed up and it is believed the recapitulation will show the increase indicated.
The increase in the old town it is expected will be about 20 per cent, but it will be much larger in the new portions.
The assessment in 1905 showed a land valuation in the old town of \$3,

973,880. The assessment in the annexed districts when they came in the city on January 1, 1908, aggregated \$1,323,667, making a total of \$8,300,477, upon which to base a comparison with the new assessment when it is ready.
There will be some startling increases in the annexed district, but there will be no room for complaints in many cases because of the small assessment made by the county five years ago. One instance of this is shown in an addition that was as-

essed five years ago at \$300. Recently one building lot in this addition sold for \$3,000.

ITALY WILL SUPPRESS OBJECTIONABLE PICTURES

[Special Cable to The Times-Dispatch.] Rome, August 13.—Objectionable moving picture shows are to be suppressed by law in Italy for the reason that the government believes that they are the main cause of the terrible increase in juvenile crime.
According to the new law the government has framed all films must be submitted before exhibition to local commissioners for approval. After approval the films will be taxed unless they are of an educational character, representing natural scenery, cities, monuments, sports, industries, episodes in national life, and so forth.
Managers who infringe the law may be fined up to \$50 for the first offense. For second and other offenses

the penalty will be much heavier. All objectionable films will be destroyed. No children under thirteen will be allowed to witness the entertainments unless their parents are with them.

GEN. BADEN-POWELL ON TOUR

Founder of the Organization Will Inspect Boy Scouts.
Vancouver, B. C., August 13.—General R. S. Baden-Powell, hero of the siege of Mafeking in the Boer War, arrived yesterday on a world tour of the Boy Scout companies, having organized that movement in Great Britain several years ago.
Commenting on the recent spread of the movement in the United States, he said: "With the unusual energy the American people display, they have taken up the question splendidly. But they are inclined to give it too much of

a military tinge; the object is not so much military as to make boys good citizens."
